Gentlemen:

SUBJECT: MEETING SUMMARY - H. B. ROBINSON

This refers to the meeting conducted at your request in the Region II Office on August 26, 1993. The purpose of the meeting was to discuss shutdown risk assessment for the upcoming Robinson refueling outage, as well as lessons learned and corrective actions stemming from the NRC Service Water Operational Performance Inspection (SWOPI). A list of attendees and a copy of your handout are enclosed.

It is our opinion that this meeting was beneficial in that it provided a better understanding of the actions you have taken or planned to minimize outage risk and address deficiencies, and other issues arising from the SWOPI.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and its enclosures will be placed in the NRC Public Document Room.

Should you have any questions concerning this matter, please contact us.

Sincerely,
