

July 10, 2014

Mr. Joseph W. Shea  
Vice President, Nuclear Licensing  
Tennessee Valley Authority  
1101 Market Street, EB 9W  
Chattanooga, TN 37402-2801

SUBJECT: ORDER RESPONSE FOR IMPLEMENTATION OF ADDITIONAL SECURITY MEASURES AND FINGERPRINTING FOR UNESCORTED ACCESS FOR WATTS BAR NUCLEAR PLANT INDEPENDENT SPENT FUEL STORAGE INSTALLATION (EA 14-044)

Dear Mr. Shea:

The U.S. Nuclear Regulatory Commission (NRC or the Commission) issued the referenced Security Order (EA 14-044), which modified the general license for your proposed independent spent fuel storage installation (ISFSI), on April 21, 2014. The Order required a response within 20 calendar days, or by May 12, 2014. Discussions were held last week with members of your staff regarding Tennessee Valley Authority's (TVA) failure to respond in a timely manner to the ISFSI Security Order as required.

Based on the discussions with your staff, we expect to be in receipt of your response to the subject Order very soon. The NRC has determined that TVA's failure to respond to the Order in a timely manner does not warrant enforcement action at this time. The timeliness of the response did not impact public health and safety, the environment, or common defense and security.

Sincerely,

/RA/

Mark Lombard, Director  
Division of Spent Fuel Storage and Transportation  
Office of Nuclear Material Safety  
and Safeguards

Docket No.: 72-1048
