CORRECTION TO LICENSE AMENDMENT REQUEST

Gentlemen:

The purpose of this letter is to provide a corrected page 3.1-4a to the License Amendment Request submitted June 18, 1992 for the H. B. Robinson Steam Electric Plant, Unit No. 2 (HBR2).

Due to an administrative error, the requirement to restore an inoperable Pressure-Operated Relief Valve (PORV) to OPERABLE status within 72 hours during Low-Temperature Overpressure Protection (LTOP) operation (vs. the current seven-day requirement) was not reflected on the retyped Technical Specification page which was submitted with our License Amendment Request dated June 18, 1992.

Please change page 3.1-4a from the License Amendment Request submitted June 18, 1992 to the enclosed page 3.1-4a.

Please refer any questions regarding this submittal to Mr. R. W. Prunty at (919) 546-7318.

Yours very truly,

R. B. Starkey, Jr.
