Dr. Preston:

It seems that I did an inadequate job of explaining what information we need in order to renew your exempt-distribution license.

Until yesterday I was focused on ensuring that your response to our Request for Additional Information (RAI) was ready to be placed in our Agencywide Documents Access and Management System (ADAMS). Now that I have had an opportunity to look over the documents you provided, I have concluded that much of the information I need is missing, or in some cases, which attachment is intended to address which regulatory requirement.

Therefore, I am sending as an attachment to this email a list of questions that correspond to the regulations in Title 10 of the Code of Federal Regulations, Part 32 (10 CFR 32), sections 32.14, 32.15, 32.18 and 32.19.

In our Request for Additional Information (RAI) dated May 19, 2014, I requested that you submit a new document in response to items 5 and 6 on NRC Form 313 describing your current program; that you review the documents currently listed in License Condition 13 to determine their relevance to your current program; and that you resubmit those documents with any necessary modifications as appropriate.

The intention of this request, which I did not make clear, is that you should provide all of the information required by the regulations in 10 CFR 32.14, 32.15, 32.18, and 32.19, and that you could reuse previously submitted documents *as long as they are provided as attachments* to a new document describing your current program. The new document, which may be (but does not have to be) in the form of a cover letter, should provide the answers to each of the questions in the attachment, either as a statement within the new document itself, or by referring to an attached, previously-submitted document. The new document should be written in such a manner that anyone reading it will be able to see how you have provided the required responses to the questions.

This may require you to resubmit some of the documents you just recently provided; I apologize for making this extra work necessary.

Please transmit your response as a hard copy or as an attachment (preferably PDF format) to an email, or both.

You may wish to refer to the guidance in NUREG-1556, Volume 8, Section 12, "Amendments and Renewals to a License." This guidance is available on the NRC web site at:
