Greg Rzentkowski, PhD
Director General
Directorate of Power Reactor Regulation
Canadian Nuclear Safety Commission
280 Slater Street
Post Office Box 1046, Station B
Ottawa Ontario Canada K1P 5S9

Dear Dr. Rzentkowski (Greg)

I just wanted to take a moment to write you to express my sincere thanks for the very informative presentation that you gave during the recent NRC Region II Integrated Counterpart Meeting in Atlanta. Your presentation on the CNSC organization, CNSC's licensing processes, and the status of reactors in Canada was particularly informative and enlightening. It was beneficial for my people to hear how the accident at Fukushima-Daiichi has affected your requirements and influenced your oversight processes. Your ongoing initiatives to further risk-inform your oversight processes resonated with many of the participants in the meeting.

Based on the feedback from participants, I can confidently say that you were well received by all. This assessment is particularly noteworthy given the number and variety of speakers and topics that were presented during this multi-day meeting.

In sum, your perspectives on regulator responsibility were thoughtful, practical, and useful. I look forward to seeing you later this year in Ottawa and discussing how we can build upon our shared commitment to assuring nuclear reactor safety.

Once again, thank you and your team for joining us, and for doing an outstanding job!

Sincerely,

/RA/

Victor M. McCree
Regional Administrator
