

APRIL 23 1979

Docket No. 50-261

Mr. J. A. Jones
Senior Vice President
Carolina Power and Light Company
336 Fayetteville Street
Raleigh, North Carolina 27602

Dear Mr. Jones:

We have completed our review of your submittal of March 15, 1979 (as supplemented April 20, 1979) regarding the acceptability of the proposed Isolation Valve Seal Water (IVSW) system. Based on our evaluation, which is enclosed, we find that the proposed IVSW system meets the requirements of an engineered safety feature as well as 10 CFR 50 Appendix J requirements. We, therefore, conclude that the proposed IVSW system is acceptable and can be used in performing future Type C tests on those valves served by the system.

Sincerely,

Original Signed By

A. Schwencer, Chief
Operating Reactors Branch #1
Division of Operating Reactors

Enclosure:
Safety Evaluation
