IE BULLETIN 80-11 MASONRY WALL DESIGN

Dear Mr. Varga:

Carolina Power & Light Company has received your letter dated October 4, 1982 regarding our response to IE Bulletin 80-11, Masonry Wall Design, for H. B. Robinson Unit 2 (HBR2). We have reviewed the Technical Evaluation and have determined that the information requested regarding the criteria and justification used in our analysis, the additional information requested on the seismic analysis methodology, and the allowable stresses for concrete masonry blocks will take considerably longer to respond than provided in your letter. We anticipate that we will be able to respond to your request for information on or before February 1, 1983.

If you have any questions reqarding this matter, please contact a member of my staff.

Yours very truly,
