ENVIRONMENTAL QUALIFICATION

Dear Mr. Varga:

As requested by Mr. Bud Requa of your staff in a telephone call on September 16, 1983, Carolina Power & Light Company (CP&L) is forwarding to you a copy of the report, "Postulated Pipe Failure Analysis Outside of Containment" for the H. B. Robinson Steam Electric Plant Unit No. 2. A copy of this report was sent to Franklin Research Center (FRC) by CP&L attached to a letter dated July 31, 1981. This information was subsequently requested in a December 11, 1981 letter from you, and CP&L forwarded another copy of the report to FRC. Since FRC is no longer your contractor for environmental qualification of electrical equipment and it appears that this report is not available at NRC, a copy is attached for your use.

If you have any further questions, on this subject, please contact a member of the Nuclear Licensing Staff.

Yours very truly,

S. R. Zimmerman
Manager - Licensing
