REVISED SCHEDULE FOR RESPONSE TO IE BULLETIN 79-01B (90 DAY)

Dear Mr. O'Reilly:

On April 3, 1980, we established a schedule of June 20, 1980, for submittal of our second response to Bulletin 79-01B (the 90-Day Report). While we have made every effort to provide the report on schedule, administrative and report production difficulties make it necessary for us to revise our submittal date to July 7, 1980. The report to be submitted on July 7 will not be 100 percent complete. While the available data for most components will be included, it will not be possible to obtain all of the available information from the NSSS vendor by that date. Carolina Power & Light Company has been and will continue to actively pursue obtaining this data, and it will be transmitted to you as quickly as possible.

Yours very truly,

B. J. Furr by S. W. Eury

B. J. Furr
Vice President
Nuclear Operations
