Mark/Lidia,

Attached for your information, in advance, are the DRAFT cover letter notifying Honeywell of the proposed administrative license amendment and, the DRAFT enclosure that contains the markups to the license regarding the proposed revisions.

We welcome your feedback prior to formally issuing the letter. I will follow up with you later this week for your comments/feedback.

Breeda and I (and possibly Kevin) are available, later this week, for a conference call to provide you with a status update on the ISA review and path forward. Let us know if you are available this Thu or Fri for a call, and the times that would work.

Thanks,  
Tilda
