RIS 2014-##, Embedded Digital Devices

- Agenda
  - RIS 2014-## History
  - Industry Comments on RIS 2014-##

RIS 2014-## History

- The industry appreciates the implementation and resolution of our comments submitted in July 2013.

- RIS 2014-## discusses and better clarifies the NRC's technical position on existing regulatory requirements.

- Comment period ended July 7, 2014
  - NEI consolidated comments sent
  - Many utilities sent comment
  - Many vendors sent comments

Industry Comments on RIS 2014-##

- The industry commented on:
  - The reinterpretation of some definitions
  - Broader scoping language that goes beyond safety-related equipment
  - An apparent dependence upon diversity only, when addressing a Common Cause Failure (CCF) vulnerability
- The NEI comment package:
  - Cover letter
  - 18 pages of landscape table
