SUBJECT: TRANSFER OF SEALED SOURCE AND DEVICE REGISTRATION FROM  
GEORGIA TO THE NRC, CERTIFICATE NO. NR-1138-D-106-S

Mr. Vanderpool,

This is a follow-up to the letter which Ms. Margie A. Kotzalas, U.S. Nuclear Regulatory Commission (NRC), sent to you, dated August 20, 2013, informing you that the NRC would issue new sealed source and device (SS&D) registration certificates to replace the ones which had been issued by the Georgia Environmental Division (GAEPD) because the authority to issue SS&D registrations has been transferred from the GAEPD to the NRC.

Please note that we have issued a new registration certificate NR-1138-D-106-S to replace GA-1138-D-106-S, dated December 20, 2010. A copy of the new registration is enclosed. Please note that we are also working on issuing new registration certificates to replace your other GAEPD certificates, and we will transmit these new certificates accordingly once they are complete.

Please be advised that you must manufacture and distribute the product in accordance with the statements and representations contained in your application, with enclosures thereto, and the information set out in your registration certificate. As a general rule, you must request and obtain an amendment to the certificate before you make changes or modifications to the information submitted to obtain the certificate.

Please read over the registration certificate in its entirety and notify us immediately of any errors or omissions.

You are obligated to notify us promptly in writing should you decide to no longer manufacture, distribute, or offer service support for the product.

If you have any questions, please contact me at [Maria.Arribas-Colon@nrc.gov](mailto:Maria.Arribas-Colon@nrc.gov) or (301) 415-6026.

Sincerely,
