Docket No. 50-261

Carolina Power & Light Company
ATTN: Mr. J. A. Jones
Senior Vice President
336 Fayetteville Street
Raleigh, North Carolina 27602

Gentlemen:

With your application dated April 30, 1981, which was filed with the Office of Nuclear Reactor Regulation (ONRR), your Company remitted a Class III license amendment request fee of \$4,000 pursuant to 10 CFR 170.22. The application proposed changes to the surveillance requirements for ECCS motor operated valves for H. B. Robinson Unit No. 2.

The ONRR staff have informed us that this application is considered by them to be a supplement to that portion of your September 26, 1980 pending application regarding lockout of ECCS valves for which you paid a Class III fee. Therefore, it has been determined that the fee remitted with your April 30 application should be refunded to you. On this basis, we have concurrently authorized the Office of the Controller to refund \$4,000 to your Company. Refunds are generally processed within a two-week period.

Sincerely,

Original Signed by
