Mr. Richard E. Jones  
Associate General Counsel  
Carolina Power and Light Company  
P. O. Box 1551  
Raleigh, North Carolina

Dear Mr. Jones:

SUBJECT: IN THE MATTER OF CAROLINA POWER AND LIGHT COMPANY (BRUNSWICK STEAM ELECTRIC PLANT NO. 1 & 2, AND H. B. ROBINSON STEAM ELECTRIC PLANT UNIT NO. 2), DOCKET NOS. 50-325, 50-324 AND 50-261

We have reviewed the Carolina Power and Light Company's requests for a hearing dated June 17 and June 26, 1981 regarding the Environmental Qualification of Safety-Related Electrical Equipment. As you will recall, members of the NRC staff contacted you on June 30, 1981 to discuss these hearing requests. It was our understanding of that conversation that you considered it acceptable for us to hold your requests in abeyance until 90 days after the date of issuance of the Safety Evaluations for the facilities. This interim period would allow additional feedback from the NRC staff concerning the issues you raised in your requests. At or before the end of the interim period, you will advise us, in writing, of whether you intend to pursue your hearing requests and what specific issues you intend to raise in the proceeding.

Please confirm as soon as practicable that our understanding is correct.

Sincerely,

Original signed by
