SUBJECT: HARTFORD HEART, LLC, LICENSE TERMINATION, CONTROL NO. 584046

Dear Dr. Yekta:

By letter dated September 26, 2013, Hartford Heart, LLC submitted to the U.S. Nuclear Regulatory Commission (NRC) a Request for Consent to direct License Transfer of activities and facilities conducted under NRC Materials License No. 06-31401-01. Based on the information you provided, we understand that as a result of a proposed sale of Hartford Heart, LLC to Connecticut Multispecialty Group, P.C., control of Hartford Heart, LLC facilities will directly be transferred to Connecticut Multispecialty Group. We further understand that this transfer will not result in any change to licensed material, persons using the licensed material, or location of use of licensed material. Finally, we understand that the Radiation Safety Officer from Connecticut Multispecialty Group, P.C. will oversee the Radiation Safety Program in the facility previously operated by Hartford Heart, LLC.

Based on the above understandings and as more fully detailed in the enclosed NRC staff's Safety Evaluation Report which documents the NRC staff's review of the request, we have no objection to the proposed transfer. We understand that the sale took place on October 1, 2013. Please find enclosed Amendment No. 1 terminating License No. 06-31401-01 as requested by your letter dated May 30, 2014. This action is being done concurrently with transferring your facilities and sources to the Connecticut Multispecialty Group, P.C. License No. 06-14854-01 under Mail Control Number 582278. This termination is being issued in accordance with the requirements of the applicable NRC License Termination Rule (10 CFR 30.36).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med., Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m EST, Monday through Friday (except Federal Holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture
