In the Matter of
ENERGY NUCLEAR OPERATIONS, INC.
(Indian Point Nuclear Generating Unit Nos. 2 and 3)
Docket Nos. 50-247-LR/286-LR

Dear Administrative Judges:

The NRC Staff wishes to inform you and the parties that it has determined to issue a further Supplement to the Final Supplemental Environmental Impact Statement (FSEIS) for license renewal of Indian Point Units 2 and 3, NUREG-1437, Supplement 38. The FSEIS Supplement will address new information received by the Staff since preparation and publication of the previous FSEIS Supplement (FSEIS Vol. 4) in June 2013. The matters to be addressed include the Applicant's May 6, 2013 submittal of engineering project cost information for severe accident mitigation alternatives (SAMAs), its February 19, 2014 submittal of new aquatic impact information, and other matters.

The Staff expects to finalize a schedule for publication of the draft FSEIS Supplement in the near future, and will provide further information to you regarding this matter when available.

Respectfully,

A handwritten signature in blue ink that reads "Sherwin E. Turk".
