July 10, 2014

Docket No. 03038457
Control No. 583170

License No. 19-31444-01

Mark G. Veckman, C.I.H.
Comprehensive Environmental Assessments, Inc.
423 4th Street, First Floor
Annapolis, MD 21403

**SUBJECT: COMPREHENSIVE ENVIRONMENTAL ASSESSMENTS, INC., NOTIFICATION
OF INDIRECT LICENSE TRANSFER AND LICENSE AMENDMENT, CONTROL
NO. 583170**

Dear Mr. Veckman:

This refers to your license amendment request letter dated January 23, 2014, the telephone conversation between you and Scott Wilson of this office on March 10, 2014, and your letter dated March 14, 2014, informing this office that Comprehensive Environmental Assessments, Inc. had undergone an indirect transfer of ownership. Enclosed with this letter is the amended license.

Based on the information you provided, we understand that as a result of an indirect transfer of ownership between yourself and Mr. Kemal Eralp and Mr. Dennis Lynch, control of Comprehensive Environmental Assessments, Inc., was transferred to Mr. Eralp and Mr. Lynch on April 19, 2013. We further understand that this transfer did not result in a change to the licensed name or licensed materials; however, the persons using the license material, the location of use of licensed material and the persons responsible for the radiation safety program did change.

Based on the above understandings and as more fully detailed in the enclosed NRC staff's Safety Evaluation Report, which documents the NRC staff's review of the request, we have no objection to the transfer. However, future changes to the ownership of Comprehensive Environmental Assessments, Inc. could result in a transfer of control requiring the consent of the NRC pursuant to 10 CFR 30.34(b).

Please contact Scott Wilson at 610-337-5136, or by e-mail at scott.wilson@nrc.gov if you have any questions regarding this letter.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(21), and 10 CFR 51.22(c)(10).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's expectations for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Thank you for your cooperation.

Sincerely,

Original signed by Michael Reichard
