Serial No. NA3-14-026
Docket No. 52-017
COL/DBE

DOMINION VIRGINIA POWER
NORTH ANNA UNIT 3
COMBINED LICENSE APPLICATION – SUBMISSIONS 16 AND 17

This letter forwards Submissions 16 (Sensitive Unclassified Non-Safeguards Information (SUNSI) version) and 17 (Public version) of the North Anna 3 (NA3) Combined License Application (COLA). The submissions include revisions to Part 2, *Final Safety Analysis Report*; Part 4, *Technical Specifications*; and Part 10, *Tier 1/ITAAC/License Conditions*.

The changes included in Submissions 16 and 17 are described in the *Revision Summary* sections of the COLA. The sources of the changes include (but not limited to) Revision 10 of the Economic Simplified Boiling Water Reactor (ESBWR) Design Control Document (DCD), submitted by GEH on April 1, 2014 (ML14101A028), the revised Fermi 3 COLA as submitted by DTE Electric Company on February 14, 2014 (ML14077A597), and responses to NRC Requests for Additional Information (RAIs) submitted prior to May 16, 2014. The scope and timing of the changes have been discussed with the NRC North Anna 3 Project Manager.

Enclosure 1 consists of one DVD containing the SUNSI version of the NA3 COLA (Submission 16). The DVD is conspicuously marked "Withhold from Public Disclosure under 10 CFR 2.390" because security-related information (SRI) is contained in Part 2. In accordance with NRC Regulatory Issue Summary 2005-26, an affidavit to support withholding of SRI is not required.

A second DVD containing the public version of the NA3 COLA (Submission 17) is provided as Enclosure 2. Additional copies of the DVDs are available upon request.

Dominion has examined the PDF files contained on the DVDs to ensure conformance with NRC guidelines related to electronic submittals. The results of the examination are presented in Enclosure 3.

THE DVD INCLUDED IN ENCLOSURE 1 OF THIS LETTER CONTAINS SECURITY RELATED INFORMATION
AND MUST BE PROTECTED ACCORDINGLY.

Enclosure 3

Electronic Submittals Conformance with NRC Guidance

Dominion has confirmed that submission and packing slip files on the enclosed DVDs conform to the criteria for COLA submissions in *Guidance for Electronic Submissions to the NRC*, Revision 6.1, dated May 27, 2011.

NRC-provided electronic preflight settings flag images and image elements created by electronic applications that are not subject to the resolution criterion applicable to scanned paper documents. All scanned content in submission files meets the resolution requirements for scanned documents.

This submittal consists of PDF files, one or more of which includes hyperlinks to other files. These hyperlinks are not essential to use of this filing. No material referenced by URL is essential to use of this filing. Material referenced by a hyperlink to another PDF essential for use of this filing is included by reference or submitted as part of this filing.
