July 25, 2014

Womack & Associates, Inc.
ATTN: Wesley Raymond Womack
President
P.O. Box 12650
Jackson, Wyoming 83002

SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 49-29424-01

By electronic communication dated June 24, 2014, you informed the U.S. Nuclear Regulatory Commission (NRC) that Womack & Associates, Inc., wished to terminate NRC radioactive materials license number 49-29424-01. The NRC Form 314 dated June 23, 2014, stated that all radioactive material had been transferred to an NRC licensed entity.

The supporting documentation to the NRC Form 314 provided a copy of the most current leak test result. The leak test result documents that there was no evidence of leakage of radioactive material from the sealed sources that were in your possession. Based on the documentation submitted and a review of your historical file, the staff concluded that all licensable radioactive material has been removed from your facility and that the facility located at 4125 South Highway 89, Suite 3B, Jackson, Wyoming, is suitable for unrestricted use in accordance with 10 CFR 20.1402, "Radiological Criteria for Unrestricted Use." No further remediation or actions with respect to NRC regulated material is required.

Please find enclosed Amendment No. 02 to License No. 49-29424-01 authorizing your license termination. An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(c)(20)(ii).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You can contact me at 817-200-1189 if you have questions or require clarification on any of the information stated above.

Sincerely,

/RA/

Roberto J. Torres, M.S., Senior Health Physicist
Nuclear Materials Safety Branch B
