

A COL applicant that references the U.S. EPR design certification will provide sitespecific information for operational programs and schedule for implementation.

The following operational programs are described in the FSAR, and the COL applicant will verify or provide the implementation schedule:

- Inservice inspection program (refer to Section 5.2.4 and Section 6.6).
- Inservice testing program (refer to Section 3.9.6 and Section 5.2.4).
- Environmental qualification program (refer to Section 3.11).
- Preservice inspection program (refer to Section 5.2.4 and Section 6.6).
- Reactor vessel material surveillance program (refer to Section 5.3.1).
- Preservice testing program (refer to Section 3.9.6 and Section 5.2.4).
- Containment leakage rate testing program (refer to Section 6.2.6).
- Fire protection program (refer to Section 9.5.1).
- Motor-operated valve testing (refer to Section 3.9.6).
- Initial Test Program (refer to Section 14.2).

The following operational programs are described by the COL applicant, and the COL applicant will provide the implementation schedule:

- Non-licensed plant staff training program (refer to Section 13.2).
- Reactor operator training program (refer to Section 13.2).
- Reactor operator requalification program (refer to Section 13.2).
- Emergency planning (refer to Section 13.3).
- Security program (refer to Section 13.6).
- Quality assurance program–operation (refer to Section 17.5).
- Radiation protection program (refer to Section 12.5).
- Maintenance rule (refer to Section 17.6).
- Cyber security plan (refer to Section 13.6).

- Process and effluent monitoring and sampling program (refer to Section 11.5).
- Process Control Program (PCP) (refer to Section 11.4).
