Welcome to John U. Lloyd Beach State Park

Perfect for a day at the beach or a family picnic, this park provides an abundance of recreational activities. Surf fishing, canoeing, swimming, nature study, boating, and picnicking will keep the whole family busy. For those interested in South Florida's underwater beauty, Lloyd Beach has one of the easiest and most interesting shore dives in the area. The park has two boat ramps with easy access to the ocean through the Port Everglades Inlet, which will please those who prefer to fish in open water. The mangrove-lined waterway is a scenic place to canoe, observe bird life, and take photographs. At the Loggerhead Café, visitors can have a leisurely lunch or grab a quick snack. A variety of items are available for rental: canoes, kayaks, paddleboats, sailboats, pontoon boats, gazebos, barbecue grills, and volleyballs. Located off A1A in the City of Hollywood.
