

Shirley,

Attached are the reports stated in our earlier email correspondence. I have no idea how the previous report was signed for by the NRC and then sent back to us after 2 months. I attached a photo of the envelope to show you how the mail was returned to Light Sources. Please help to expedite these reports if possible since we have already lost several months in handling these reports. Please contact me directly if there are any questions.

Sincerely,

Gene Czako

Subject: RE: NRC Reports Light Sources Ins.

Shirley,

Thanks you for the quick response. I will resend the two missing reports to the address below. It was interesting that the very last report was sent as registered mail and the return form came back to us within a few days. Two months later the letter was returned to me apparently unopened.

We will also be sending in an additional update/product request letter.

Thanks again for a quick reply. We were very concerned that our reports were seeing no replies.

Sincerely,

Gene Czako

Mr. Czako,

Based on my search from our database, the last document we received from you is the annual distribution report dated January 27, 2014. We do not have the amendment inquires you sent in October 2013, and June 2014 in our database.

Please use the following address to submit your request:

Subject: NRC Reports Light Sources Ins.

Ms. Shirley Xu:
Re: License #06-31445-02E

At Light Sources Inc of Orange Ct, we have noted that we have not received a confirmation of receipt for either our annual distribution report which we mailed in January 2014, nor any response or acknowledgement for a letter we sent in October 2013 regarding a change in location of the manufacturer of the Kr-85 lamps which we distribute. We have now also had a letter that we sent to NRC Headquarters in June

2014 regarding an amendment to our license for a new model lamp [a plant grow light] returned to us unopened. All of these letters were sent by registered mail. We have checked the NRC online directory and it appears that the inspector who had been taking care of our license is no longer with the NRC. We had put Bruce Carrico's name in an attention line, but did not anticipate that if he left the NRC that mail sent to the NRC would not be opened. [The returned letter notes on the envelope that no forwarding address is known.]

Because we are concerned if any of these documents have been processed and wonder if NRC records show we have filed the required report, we are going to re-send all of these documents to the NRC. Because we understand you have taken over managing some of Mr. Carrico's licensees, we would like to send them to your attention. We wanted to ensure that the NRC knows that these items are again on the way to the NRC. We are especially hoping that the grow lamp request could be expedited as having the letter returned to us unopened has of course resulted in delay in the processing of that amendment request.

In addition, we would also be enclosing a request for one additional amendment of our distribution license which involves in-house labeling of lamps.

Could you please confirm that the address to mail these documents to you is:

US Nuclear Regulatory Commission
Att: Shirley Xu
Washington, DC 20555-0001

Thank you for your help regarding these documents.
