**Re: FPL Turkey Point Units 6 & 7 Project
Amendment to Site Certification Application (PA03-45A3)**

Dear Mr. Halpin:

On June 30, 2009, Florida Power & Light Company (FPL) filed its Site Certification Application (SCA) for the Turkey Point Units 6 & 7 Project (Project) in Miami-Dade County, pursuant to the Florida Electrical Power Plant Siting Act, Section 403.501, et seq., Florida Statutes (F.S.). As part of the SCA, FPL proposed to extract fill for the Project from an FPL-owned fill source. FPL has suspended pursuit of local approvals for the FPL-owned fill source and is therefore amending its SCA to reflect this change in the Project.

Enclosed please find a set of substitute SCA pages reflecting this amendment. Please update your hard copy of the SCA by replacing the affected pages with the enclosed substitute pages. Also enclosed is a complete electronic copy (CD) showing the relevant changes throughout the application. You may discard the previously submitted CD if you wish. We have also issued copies of the substituted pages to each person who received a hard copy of FPL's SCA in the original distribution. We would expect that recipients would replace these pages in their document. For those recipients who originally received an electronic copy (CD) of FPL's SCA, we have issued a complete electronic copy (CD) of the SCA showing the relevant changes throughout the application.

Please note that some of the analyses and studies contained in the original SCA included the FPL-owned fill source. Where the information related to the FPL-owned fill source affect the conclusions reached from the analyses or information related to the Project, such as total wetlands impact, the information has been revised to reflect this amendment. Where the information related to the FPL-owned fill source does not affect the conclusions reached in those analyses or studies, there is no need to update or modify such analyses and studies. For example, the construction noise analyses contained in SCA Chapter 5 and the cultural resources assessment surveys in SCA Appendix 10.7.2.1 contain information related to the FPL-owned fill source as well as the Site and other associated facilities. These analyses and studies are not being updated or modified. Any impacts of the fill source addressed in those analyses and studies however will not occur and should therefore be disregarded for this proceeding.

Separate correspondence, including attachments submitted to the Army Corps of Engineers regarding the modification of the Federal Dredge and Fill Permit Application to remove the FPL-owned fill source has been included in SCA Appendix 10.4.

We look forward to working with you as you process this amendment. If you should have any questions regarding this amendment, please do not hesitate to call me at 561-691-7518 or Matt Raffenberg at 561-691-2808.

Sincerely,
Florida Power & Light Company

Barbara P. Linkiewicz
Director of Environmental Licensing

46. Robert B. Shillinger, Chief Assistant County Attorney, Monroe County, 1111 12th Street, Suite 408, Key West, Florida 33040 (1 CD)

INTRODUCTION

FPL is amending *FPL Turkey Point Units 6 & 7 Project Site Certification Application (SCA) for Plant and non-Transmission Associated Facilities* (June 2009) as follows:

The FPL-owned fill source is no longer an associated facility of the FPL Turkey Point Units 6 & 7 Project.

The pages in this package correspond to pages of the SCA and constitute an amendment (Rev. 1) of the SCA. Please refer to the instructions beginning on the following page of this document for a list of the substituted and deleted pages. Please update your hard copy of the SCA by replacing the revised pages with the enclosed substitute pages. For clarity, wherever possible, changes are indicated by underlined text (inserted text) and by strike-out text (for deletions). Deleted pages should be removed from the document.

The CD included in this package (labeled *Site Certification Application Amendment (Rev. 1) (May 2010)*) replaces the entire searchable e-copy of the SCA June 2009 CD, which may be discarded.

Instructions for identifying the pages to be replaced or deleted:
