**SUBJECT: VOID LETTER CONCERNING REQUEST FOR LICENSE AMENDMENT,  
CONTROL NO. 581363**

Dear LTC Phillips:

This concerns the subject for an amendment to your material license in an application to us dated July 10, 2013, and our request for additional information (RAI) (deficiency email) sent via email dated December 30, 2013. Because of furlough, I was unable to issue the amendment by the October 15, 2013, due date. You requested several extensions of the due date to get your response to the RAI to us. In addition, you decided to resubmit the amendment request without including extraneous information. In 41 days, the amendment request will be 1 year old since the date of receipt. Therefore, I feel it would be easier to void this mail control number and create a new mail control number upon receipt of the updated amendment request. Please note that we have voided your amendment request. This action is without prejudice to the resubmission of an updated amendment request application. If there are any questions, please contact me at (817)200-1132.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

A handwritten signature in black ink, appearing to read "Jacqueline D. Cook".

Jacqueline D. Cook, Senior Health Physicist  
Nuclear Materials Safety Branch B
