

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

August 5, 2014

Sheila K. Pershall
ATI Specialty Alloys & Components
1600 NE Old Salem Road
Albany, OR 97321

Dear Ms. Pershall,

Based on the information provided to the U.S. Nuclear Regulatory Commission (NRC) in three emails dated May 12, 2014, informing the NRC of the business name change of ATI Wah Chang to ATI Specialty Alloys & Components, the NRC is hereby terminating the following NRC licenses that were issued to ATI Wah Chang:

1. XCOM1247, issued on June 11, 2012 and expires on December 31, 2014
2. XCOM1248, issued on July 5, 2012 and expires on December 31, 2014
3. XCOM1259, issued on April 26, 2013 and expires on December 31, 2014
4. XCOM1260, issued on May 13, 2013 and expires on December 31, 2015

This termination is effective immediately. Our termination of these four licenses takes into consideration that the components authorized for export have been shipped and the licenses are no longer needed by your company. If you have any questions regarding this change, please call Jane Chimood at (301) 415-1575.

Sincerely,

A handwritten signature in black ink, appearing to read "Brooke G. Smith".

Brooke G. Smith, Branch Chief
Export Controls and International Organizations
Office of International Programs
