SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

Dear Ms. Muhammad:

In NRC Form 314, 'Certification of Disposition of Materials dated May 13, 2014, you contacted the U.S. Nuclear Regulatory Commission and indicated that you wished to terminate your NRC radioactive material license. The NRC staff has reviewed the documentation that you provided. Based on its review, the staff has concluded that all licensable radioactive material has been removed from your facility and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required. Your facility located at 702 West 12th Street, Flint, Michigan, is suitable for unrestricted use and NRC license number 21-18686-01 is hereby terminated.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please contact me at (630) 829-9887.

Sincerely,

A handwritten signature in black ink, appearing to read "Jennifer L. Bishop".
