RE: Amendment to Materials License #11-27746-01

Dear Mrs. Roldan-Otero:

I am writing this letter *to request an expedited amendment* on Premier Technology Inc. materials license *removing my name, Robin Lora, as Radiation Safety Officer (RSO)*. On August 11, 2014, I turned in a letter of resignation as I've accepted new employment and will no longer be RSO for Premier Technology. My last day at Premier Technology will be August 22, 2014.

Currently, Premier Technology does not have a qualified individual to assume the position of RSO. I was in contact with the QA manager/T&R Official, Matt Burke, and discussed this issue. He advised me that he has a current employee who will undergo training and certification to become the new RSO for Premier Technology. Mr. Burke also advised me that once the license is amended, Premier Technology will lockdown the gamma source until the RSO position can be filled by this individual. After the individual has fulfilled his requirements for RSO, he will write another letter to the NRC requesting amendment to the license to add his name as the new RSO for Premier Technology.

As stated above, I would like to request this amendment be expedited as soon as possible as my last day with Premier Technology is **Friday, August 22, 2014**.

Thank you,

Robin Lora
