

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

August 28, 2014

Mr. Timothy Slavin
State Historic Preservation Officer
Division of Historical and Cultural Affairs
State of Delaware
21 The Green
Dover, DE 19901-3611

SUBJECT: REQUEST FOR COMMENTS ON THE DRAFT ENVIRONMENTAL IMPACT
STATEMENT FOR THE PSEG SITE EARLY SITE PERMIT APPLICATION
REVIEW

Dear Mr. Slavin:

The U.S. Nuclear Regulatory Commission (NRC) staff is reviewing an application submitted by Public Service Enterprise Group, Incorporated (PSEG) for an Early Site Permit (ESP) for the PSEG Site in Salem County, New Jersey. As part of its review of the proposed action, the NRC staff has prepared a draft environmental impact statement (EIS). The U.S. Army Corps of Engineers, (USACE) Philadelphia District is a cooperating agency on the draft EIS. The draft EIS NUREG-2168, "Environmental Impact Statement for an Early Site Permit (ESP) at the PSEG Site," includes analyses of relevant environmental issues, including potential impacts and effects on historic properties, and documents the NRC staff's determination regarding the suitability of the proposed site for the construction and operation of a new nuclear power plant.

A notice of availability of the draft EIS is anticipated to be published by the NRC in the *Federal Register* on August 22, 2014. The EIS is available for public inspection at the NRC Public Document Room, located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC's Agencywide Documents Access Management System (ADAMS), which is accessible from the NRC's website at <http://www.nrc.gov/reading-rm/adams.html> under the accession number ML14219A304. The draft EIS can also be accessed online at www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr2168/.

While the project is located in New Jersey the NRC consulted with your office on visual effects on historic properties located in Delaware. The NRC and your office completed consultation under Section 106 of the National Historic Preservation Act of 1966, as amended, as documented in the letter from you dated September 25, 2013, concurring with a determination that the proposed project will not adversely affect any properties listed on or eligible for listing on the National Register of Historic Places. In addition to our correspondence with your office, we have documented our evaluation in our draft EIS. While Section 106 consultation is complete, if you wish you may provide comments on the draft EIS.

Chapter 2 of the draft EIS describes historic properties and cultural resources located within the direct and indirect areas of potential effect (APE) for the PSEG Site. Chapter 4 discusses

impacts to cultural resources during pre-construction and NRC-authorized construction, and Chapter 5 discusses impacts during operation of the proposed PSEG Site. Chapter 7 addresses cumulative impacts to historic properties and cultural resources in the vicinity of the PSEG Site APEs.

The NRC and USACE staff plan to hold two public meetings to present the analyses and results in the draft EIS, and to receive stakeholders comments, on Wednesday, October 1, 2014, at the Salem Community College Performing Arts Theatre (Davidow Hall) located at 460 Hollywood Avenue, Carneys Point, New Jersey. The first meeting will convene at 1:00 p.m. and will continue until 4 p.m. (as necessary). The second meeting will convene at 7:00 p.m., with a repeat of the overview portions of the first meeting and will continue until 10:00 p.m. (as necessary). The meetings will be transcribed and will include: (1) a presentation of the contents of the draft EIS; and (2) the opportunity for interested government agencies, organizations, and individuals to provide comments on the draft report. Additionally, the NRC and USACE staff will host informal discussions one hour before the start of each meeting during which members of the public may meet and talk with staff members on an informal basis. You and your staff are invited to attend.

Please provide any information, comments, or concerns you feel are appropriate on the draft EIS during the comment period, which ends on November 6, 2014. Comments can be submitted: (1) by mail to the Chief, Rules, Announcements, and Directives Branch (RADB), Division of Administrative Services, Office of Administration, Mailstop 3WFN-06-A44MP, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555-0001; (2) by e-mail to PSEGSITE.ESPEIS@nrc.gov; or (3) in person during the public meetings.

T. Slavin
