In the Matter of
CROW BUTTE RESOURCES, INC.
(License Renewal for the In Situ Leach Facility, Crawford, Nebraska)
Docket No. 40-8943; ASLBP No. 08-867-02-OLA-BD01

Dear Administrative Judges:

On January 2, 2013, the Staff informed the Board and the parties of the public availability of the Safety Evaluation Report (SER) for the Crow Butte Resources (CBR) license renewal application. The purpose of this letter is to inform the Board and the parties of revisions to the SER and the public availability of the Revised SER. On August 15, the Staff made the Revised SER publicly available via the NRC's Agencywide Documents Access and Management System (ADAMS). The Revised SER can be accessed electronically via ADAMS Accession Number ML14149A433.

The revisions to the SER include changes to License Condition (LC) 9.7, regarding appointment of a qualified designee for daily health physics inspections; conforming changes to LCs 9.2 and 9.6; changes to the Staff's evaluation regarding those LCs; and a change to the surety amount in LC 9.5 for consistency with Amendment 27 to the CBR license. Attachment 1 to this letter contains a table listing the SER sections and page numbers affected by the revisions.

Respectfully submitted,

Signed (electronically) by
David M. Cylkowski
Counsel for the NRC Staff

CERTIFICATE OF SERVICE

I hereby certify that copies of the foregoing "NRC STAFF'S LETTER TO THE ATOMIC SAFETY AND LICENSING BOARD" in the above captioned proceeding have been served this 20th day of August 2014 via the NRC's Electronic Information Exchange ("EIE"), and via e-mail to David Frankel, counsel for Consolidated Intervenors, which to the best of my knowledge resulted in transmittal of the foregoing to those on the EIE Service List for the above captioned proceeding.
