RE: License No. 42-23982-01E, Docket No. 030-38393, Registration Certificate NR-1232-D-101-E

Dear U.S. NRC,

The purpose of this letter is to promptly respond to your correspondence dated August 4, 2014.

This site has not received, nor distributed, any tritium-containing self-luminous light sources in gun sights since the certificate of registration and license were issued in August 2011. (No gun sights received or distributed in 2011, 2012, 2013 or year-to-date 2014.)

We do not anticipate receiving/distributing any gun sights this year as there are no outstanding orders. Please know, I will submit our transfer report on or prior to January 31st, 2015 to cover the prior year (2014) and then subsequently after that in accordance with 10 CFR 32.25(c).

Please accept my sincere apologies for my misinterpretation of the regulations. If you have any questions, please contact me at (972) 344-8049, or by electronic mail at liz@raytheon.com.

Respectfully,

Elizabeth Jurik-Geiger
