August 26, 2014

10 CFR 50.90

U. S. Nuclear Regulatory Commission (NRC)  
Attention: Document Control Desk  
Washington, D. C. 20555-0001

Subject: Duke Energy Carolinas, LLC (Duke Energy)  
Catawba Nuclear Station, Units 1 and 2  
Docket Numbers 50-413 and 50-414  
License Amendment Request (LAR) for Measurement Uncertainty Recapture  
(MUR) Power Uprate

Reference: Letter from Duke Energy to NRC, same subject, dated June 23, 2014

The reference letter submitted a LAR for the Renewed Facility Operating Licenses (FOLs) for Catawba Nuclear Station (CNS) Units 1 and 2 NPF-35 and NPF-52 and the subject Technical Specifications (TS) to support a MUR power uprate for Catawba Unit 1. On page A1-2 of the reference letter, Duke Energy made a licensee commitment to evaluate 50 equipment IDs and 40 enclosures containing 21 individual component types encompassing 330 total components for post-MUR Equipment Qualification (EQ) conditions. The completion date for this commitment was stated as prior to implementation of the MUR power uprate. The specific types of components to be evaluated per this commitment were listed on page E2-28 of the reference letter.

On August 18, 2014, a telephone conference call was held between Duke Energy and NRC representatives concerning this commitment. During the conference call, Duke Energy indicated that this commitment had been completed and that the results of the evaluation were acceptable for post-MUR EQ conditions. The purpose of this letter is to formally docket the completion of this commitment and the acceptability of the committed evaluation. The documentation relative to the completion of this commitment has been formally accepted by Catawba.

There are no regulatory commitments contained in this letter.

Pursuant to 10 CFR 50.91, a copy of this amendment request supplement is being sent to the designated official of the State of South Carolina.

Inquiries on this matter should be directed to L. J. Rudy of Catawba Regulatory Affairs at (803) 701-3084.

A001  
NRR

I declare under penalty of perjury that the foregoing is true and correct.

Executed on August 26, 2014.

Very truly yours,

A handwritten signature in black ink, appearing to read "Kelvin Henderson", with a long horizontal flourish extending to the right.

Kelvin Henderson  
Vice President, Catawba Nuclear Station
