Subject: 2.2.06 Enforcement Petition - Turkey Point Nuclear Plant

Hello Audrey:

The other day, I sent you several documents (via email) in support of the 2.206 Enforcement Petition related to licensed operations at the Turkey Point Nuclear Plant. However, the email was rejected by the NRC email server? In any event, I have uploaded the documents to one of the servers for Saprodani Associates where you can download them at your convenience. Please click on this link to access the documents: [2.206 Petition Documents](#)

Please provide a copy of the documents to the NRC Petition Review Board members prior to the Sept. 3rd teleconference call meeting so that they can reference them during the presentation accordingly.

Should you have any questions regarding the above, please do not hesitate to contact me at your convenience.

Kind regards,
