

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

December 2, 2014

Mr. H. T. Holmes
State Historic Preservation Office
Mississippi Department of Archives and History
P.O. Box 571
Jackson, MS 39205

SUBJECT: NOTICE OF AVAILABILITY OF THE FINAL SUPPLEMENTAL ENVIRONMENTAL IMPACT STATEMENT FOR LICENSE RENEWAL OF GRAND GULF NUCLEAR STATION, UNIT 1 (MDAH PROJECT LOG #01-171-12, CHOCTAW COUNTY)

Dear Mr. Holmes:

Please find enclosed a copy of the final "NUREG-1437, Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Supplement 50, Regarding Grand Gulf Nuclear Station, Unit 1." The final Supplemental Environmental Impact Statement (SEIS) is being issued as part of the U.S. Nuclear Regulatory Commission's (NRC's) process to decide whether to issue a renewed operating license to Entergy Operations, Inc. for Grand Gulf Nuclear Station, Unit 1 (GGNS). In the final SEIS, the NRC staff determined that the adverse environmental impacts of a renewed license for GGNS is not great enough to deny this option for energy planning decision-makers. In the context of the National Historic Preservation Act of 1966, NRC staff determined that no historic properties will be affected by the proposed action (license renewal). The final environmental impact statement, together with any comments and any supplement, will accompany the final Safety Evaluation Report to be considered in the Commission's license renewal decisionmaking process.

If you have any questions regarding this matter, please contact Robert Hoffman, Environmental Scientist, at 301-415-1107 or by e-mail at Robert.Hoffman@nrc.gov.

Sincerely,
/RA/
David J. Wrona, Chief
Environmental Review and
Guidance Update Branch
Division of License Renewal
Office of Nuclear Reactor Regulation

Docket No. 50-416
