**RECORDS BEING RELEASED
IN THEIR ENTIRETY**

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

June 14, 1978

Release

Mr. John C. Keeney
Acting Assistant Attorney General
Criminal Division
U.S. Department of Justice
Washington, D. C. 20530

Dear Mr. Keeney:

In carrying out its responsibilities under the Energy Reorganization Act of 1974 for the safeguarding of nuclear material, the U. S. Nuclear Regulatory Commission has recently undertaken a review of a staff report, "Inquiry Into Testimony of the Executive Director for Operations," concerning the possibility of theft or diversion at NUMEC-Apollo prior to 1968.

To ensure that they are aware of any relevant information pertinent to this matter, the Commissioners have requested a briefing from the Federal Bureau of Investigation (FBI) on the progress and results to date of any FBI investigations of the NUMEC matter. If possible, the Commission desires the briefing to be held on or after June 26, 1978, and before July 21, 1978 -- preferably during the earlier part of this period. Attendees would include the Commissioners and other selected officials of the NRC with a need to know.

The FBI's past support and cooperation have been greatly appreciated by the NRC, and your efforts in response to this request will be very helpful in ensuring that the NRC meets its responsibilities. I would be happy to hear from you direct, or your staff may contact J. Partlow (Tel. 427-4176).

Sincerely,

Lee V. Gossick
Executive Director for Operations
