Hi Jane,

It was good talking with you last week.

As per our discussions, I have an update to the foreign obligations of UF6 exports by URENCO for the period January 1, 2015-December 31, 2017 (per item 11 of the Application for NRC Export License Renewal) from the one I submitted on August 4, 2014.

The old list was:

Australia	45%
Canada	18%
USA	15%
Namibia	10%
Uzbekhistan	7%
Kazakhstan	3%
South Africa	2%

The new list is:

Australia	45%
Canada	18%
USA	15%
Namibia	10%
Uzbekhistan	7%
Kazakhstan	3%
Russia	1%
South Africa	0.8%
Czech Republic	0.2%

Do I need to resubmit the entire application? I'd like to call you tomorrow to discuss.

Thanks and best regards,

Rob

Subject: RE: Draft License XSOU8787/04 for Review

Hi Jane,

Thanks much for the update and sending me the draft for final review. The draft license amendment is as I expected, including the circled changes. Can I ask why EURATOM-obligated material was removed from the section authorizing shipment of Australian and Canadian-obligated material? I ask because we had this in all previous license amendments. Also, we updated the Foreign Obligations (slight revision with Kazakhstan replacing Russian material under item 11 in the application). I see it is referenced in the amended license, but do not see the changed list.

Thanks,
Rob

Robert,

We received the EURATOM assurances for your application for amending export license XSOU8787/04 today, and are about to issue the license. Please review the attached draft of NRC license amendment XSOU8787/04, especially the changes circled in red, and let me know if there are any other changes.

Thank you,
Jane Chimood
