Don – I have received the inspection report. Thank you for your visit and suggestions for our radiation program. I will notify you via email when our material analyzer arrives on site. We look forward to your next visit.

Thanks  
Kim

**Subject:** Inspection Report

Ms. Cox; I appreciate the fact that you and Clayton took the time on Tuesday, August 12, to meet with me late in the work day. Thank You. Attached is the inspection report from that visit. There is no action necessary on your part with respect to the form. You will probably want to keep it on file with your other records. Since you did not have the material analyzer at your facility at the time of the inspection, we will return in approximately 12 months to follow up with another inspection. If you would, please acknowledge receipt of the report with a short reply to this email.

If you have any questions, please feel free to email or call at the number listed below. Again, thank you for accommodating my schedule on short notice.
