**Subject:** surety

Ron

License Condition 9.5 state that "Proposed annual updates to the surety amount, required by 10CFR40 Appendix A, Criterion 9, shall be provided to the NRC by August 18 of each year. Uranium One did not meet this deadline and is requesting an extension until September 18<sup>th</sup>, 2014. As discussed on Friday August 29, 2014 the surety was not submitted to the NRC due to an extension on the annual report granted by the state. The surety is always included in this annual report and NRC is given a copy to meet the requirements of 10 CFR 40 Appendix A criterion 9 and LC 9.5. It should be noted that the previous year's surety value is less than what is currently in place with the WDEQ-LQD, and the surety value for the upcoming year will likely be approximately the same if not a bit less than the current surety.
