Dear Sir or Madam:

This letter serves as notification of Arkansas Nuclear One's (ANO) readiness for your office to perform a 95001 Supplemental Inspection. This would be an inspection associated with the White Security Finding documented in Reference 1.

ANO's readiness for the inspection was discussed with Mr. Mark Hair, Branch Chief Plant Support Branch 1. ANO proposes the week of October 6, 2014, as a suitable time to accommodate the requirements of this inspection. In the event the NRC cannot support the week of October 6, ANO can accommodate the NRC during the week of October 13, 2014.

This letter contains no new commitments. If you have any questions or require additional information, please contact me.

Sincerely,
