The following additional information is needed to review your request for consent to transfer of control/ownership for NRC Licenses:

1. 21-01333-01 Beaumont Health System, Control 584323
2. 21-01333-02 Beaumont Health System, Department of Radiation Oncology, Control 584324
3. 21-20324-01 Beaumont Cardiovascular Specialists, Control 584330
4. 21-25833-01 Beaumont Northpointe, Control 584329
5. 21-26392-01 Beaumont Michigan Heart Group, Control 584325
6. 21-32616-01 Beaumont Northwest Cardiology Group, Control 584331

Additional Information for Change of Ownership/Control

1. Please confirm that the change of ownership/control is a "direct" transfer of control.
2. Please specify if there are any name changes to the licenses.
3. Please provide documentation that all of the transferees (Beaumont Health System, Oakwood Healthcare, and Botsford Health Care) agree to the change of ownership/control of the licensed materials and activity, and the conditions of transfer. Need all three hospital systems to sign the change of control agreement, since all of the health systems will have a member on the board of the new Beaumont Health, Inc.
4. If Botsford Health Care and Oakwood Healthcare also have NRC licenses, they will need to **obtain the NRC's consent before** the transfer of ownership/control. Botsford Health Care and Oakwood Healthcare will need to submit the transfer of ownership/control information. Please see the attached Transfer of Ownership/Control information.

Please send a facsimile (630- 515-1078) of your response to the above within 14 days and state, Response to Controls: 584323

584324

584325

584329

584330

584331.

Please include a cover letter on company letterhead, dated and signed (signed by an individual(s) who is authorized to sign official documents on behalf of the licensee) with your response letter. Please call me at 630-829-9839 if you have any questions.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this facsimile and the attached documents will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Change of Control Information

Control: Control of a license is in the hands of the person or persons who are empowered to decide when and how that license will be used. That control is to be found in the person or persons who, because of ownership or authority explicitly delegated by the owners, possess the power to determine corporate policy and thus the direction of the activities under the license.

Transferee: A transferee is an entity that proposes to purchase or otherwise gain control of an NRC-licensed operation.

Transferor: A transferor is an NRC licensee selling or otherwise giving up control of a licensed operation.

Licensees must provide full information and obtain NRC's **prior written consent** before transferring control of the license. Provide the following information concerning changes of control by the applicant (transferor and/or transferee, as appropriate). If any items are not applicable, so state.

1. Provide a complete description of the transaction (transfer of stocks or assets, or merger). Indicate whether the name has changed and include the new name. Include the name and telephone number of a licensee contact who NRC may contact if more information is needed.
2. Describe any changes in personnel or duties that relate to the licensed program. Include training and experience for new personnel.
3. Describe any changes in the organization, location, facilities, equipment or procedures that relate to the licensed program.
4. Describe the status of the surveillance program (surveys, wipe tests, quality control) at the present time and the expected status at the time that control is to be transferred.
5. Confirm that all records concerning the safe and effective decommissioning of the facility will be transferred to the transferee or to NRC, as appropriate. These records include documentation of surveys of ambient radiation levels and fixed and/or removable contamination, including methods and sensitivity.
6. Confirm that the transferee will abide by all constraints, conditions, requirements and commitments of the transferor or that the transferee will submit a complete description of the proposed licensed program.
7. Provide documentation that the transferor and transferee agree to the change in ownership or control of the licensed material and activity, and the conditions of transfer; and the transferee is made aware of all open inspection items and its responsibility for possible resulting enforcement actions.
