Subject: Preparation for public meeting
Attachments: RAI Clarification Package.pdf

Jill, Chad.

Attached is a document for our public meeting.

The first page is just notes on agenda items. We've kept it pretty high level.

The following pages are revised tables that exhibit project schedules from different perspectives or emphases. Bradley, among others, experienced some confusion between different schedules as there was some language differences. What we've done is to show changes that ought to bring them into harmony and be easier for all to use. These are the only "file" or example we think is needed for everyone to see in the meeting. Everything else will be done just by talking about it. I assume you can delete the "agenda" page and docket the balance of the document.

FYI, we've identified about 40 separate clarification questions between the TR and ER RAI responses. Of those, we think it will be useful to actually discuss 5. All of the rest we believe are clear and can be answered readily in the form of a Revised RAI Response document. We'll be prepared to discuss the schedule of getting that to NRC during the public meeting.

If you have any questions about the file or want to discuss the matter, please give me a call. I'm here today through Monday. I'm out of town Sep 23 – 29, but could visit by phone.
