

Resolution Summary of Acceptance Review Results (Radwaste Management System)

- Background
- Resolution Summary
- Future Plan

Background

- **Current Status for Radwaste Issue Resolution**

- Eleven (11) items were issued by U.S. NRC related to Radwaste System and all items were discussed in the previous NRC Clarification Meeting in Feb, 2014
- The following two(2) items were already closed at that meeting
 - COL information for the instrumentation of spent resin dewatering system
 - Transfer of spent activated carbon from LWMS
- For other nine(9) items clarified at that meeting, we take this opportunities to present how we incorporate the resolutions into the revised DCD (markup).
