SUBJECT: WITHDRAWAL OF LICENSE TERMINATION REQUEST

Dear Mr. Palmberg:

By letter dated December 20, 2012, Private Fuel Storage, LLC (PFS) requested the Nuclear Regulatory Commission (NRC) terminate Special Nuclear Materials License No. SNM-2513. Prior to the NRC completing its review of the termination request, on March 8, 2013, as supplemented April 8, 2013 (Agencywide Documents Access and Management System (ADAMS) accession number ML13099A348), PFS submitted a fee exemption request (ML13081A445). The NRC granted PFS's 2013 exemption request (ML13270A280). PFS also requested a fee exemption for 2014 (ML13304A525). In their response to this second exemption request, the NRC advised PFS by letter (ML14142A068) that changes proposed for the fiscal year 2014 fee rule may make PFS's exemption request unnecessary.

On June 30, 2014, the NRC published its 2014 final fee rule which went into effect August 29, 2014. As part of this rulemaking, the NRC revised 10 CFR 171.15(a) to be more consistent with the annual fee assessments for other classes of licensees. Accordingly, the fee rule does not require the payment of annual fees until the licensee notifies the Commission of its readiness to operate the facility.

Subsequently, by letter dated September 12, 2014, PFS requested to withdraw the license termination from NRC review. The NRC acknowledges your request to withdraw the application. NRC staff activities on the review have ceased and the associated Technical Assignment Control number has been closed. If you have any questions, please contact me at (301) 287-9225.

Sincerely,

/RA/
