MEMORANDUM TO: Ronaldo V. Jenkins, Chief  
Licensing Branch 3  
Division of New Reactor Licensing  
Office of New Reactors

FROM: Perry Buckberg, Senior Project Manager **/RA/**  
Licensing Branch 3  
Division of New Reactor Licensing  
Office of New Reactors

SUBJECT: SUMMARY OF SEPTEMBER 18, 2014, PUBLIC MEETING WITH  
DOMINION VIRGINIA POWER TO DISCUSS NORTH ANNA  
COMBINED LICENSE APPLICATION REQUESTS FOR ADDITIONAL  
INFORMATION AND OTHER EMERGENT TOPICS

On September 18, 2014, a Category 1 public conference call was held between the U.S. Nuclear Regulatory Commission (NRC) and Dominion Virginia Power (Dominion) regarding the North Anna Unit 3 Combined Operating License Application (COLA). The meeting notice was issued on September 3, 2014, and was available through both the NRC public meeting website and the Agencywide Documents Access and Management System (ADAMS) under Accession Number ML14246A370. The list of meeting attendees is included as an enclosure.

On December 18, 2013, Dominion submitted a revised COLA that incorporated by reference the General Electric-Hitachi Economic Simplified Boiling-Water Reactor, Revision 9 that included all necessary information for the staff to conduct its review. The staff issued a review schedule for the revised COLA on April 7, 2014 (ML14079A174). Topics for discussion during this conference call were; the staff's recently issued draft Request for Additional Information (RAI) 7654 related to the operating basis earthquake (OBE) (ML14251A348), and Hydrology.

The meeting commenced at 2:00 p.m. with opening remarks, an introduction of attendees, an announcement of meeting logistics then the discussion of the OBE began. The staff queried Dominion representatives on their approach to defining the OBE for the North Anna Unit 3 site as reflected in Dominion's July 10, 2014, presentation (ML14191A052) and as proposed in draft COLA final safety analysis report (FSAR) mark-ups (ML14260A147). As a result, the staff will deliberate on the Dominion responses, will reconsider the language in draft RAI 7654, and look to discuss the OBE in a future meeting. Some general SNM requirements were discussed and it was agreed that additional dialogue would be beneficial whether in a public forum or non-public based on the meeting content.

The Hydrology discussion included the staff querying Dominion representatives regarding information in FSAR, Section 2.4. The staff will also deliberate on the Dominion responses and will consider whether another meeting will be needed before draft RAIs are considered.

Following the OBE technical discussion, the public was queried for related comments or questions. One member of the public asked a general question about the North Anna region seismology. Following the Hydrology technical discussion, the public was queried for related comments or questions. The same member of the public had several general questions about the North Anna region Hydrology.

The meeting was then adjourned at 3:35 p.m.

Docket No.: 52-017

Enclosure:  
List of Attendees
