PCS-ICIS

This search allows you to retrieve selected data from the Permit Compliance System (PCS) and Integrated Compliance Information System (ICIS) databases in Envirofacts regarding facilities registered with the federal enforcement and compliance (FE&C) and holding National Pollutant Discharge Elimination System (NPDES) permits. Specify the facilities by using any combination of facility name, National Pollutant Discharge Elimination System (NPDES) permit number, geographic location, facility industrial classification, and chemicals.

The search is highly dependent on geography. Currently all states are reporting to ICIS, except for Wyoming. Wyoming data will begin flowing data to ICIS-NPDES as soon as February or March of 2013.

ICIS

Consolidated facility information (from multiple EPA systems) was searched to select facilities

[<< Return](#)

City Name: Berwick
State Abbreviation: PA

Results are based on data extracted on JAN-23-2014

Note: You are viewing results from the modernized data system, Integrated Compliance Information System (ICIS). The state reporting this data to EPA previously reported the data to a historic data system, Permit Compliance System (PCS). Use the following button to view the historic data from PCS.

Note: Click on the MAPPING INFO value to obtain mapping information for the facility.
Click on the NPDES ID to view detailed reports on the facility.

The data within the table below can be downloaded in a comma-separated value file for use in Excel by clicking here:
