Mr. Michael J. Pacilio
Senior Vice President
Exelon Generation Company, LLC
President and Chief Nuclear Officer
Exelon Nuclear
4300 Winfield Road
Warrenville, IL 60555

SUBJECT: LASALLE COUNTY STATION, UNIT 1 – REQUEST BY ELECTRIC POWER RESEARCH INSTITUTE, INC. TO WITHHOLD INFORMATION FROM PUBLIC DISCLOSURE (TAC NO. MF3270)

Dear Mr. Pacilio:

By application to the U.S. Nuclear Regulatory Commission (NRC) dated December 20, 2013 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML13358A354), Exelon Generation Company, LLC (Exelon) submitted a license amendment request to revise the reactor coolant system pressure and temperature curves for LaSalle County Station, Unit 1. The application included two copies of an affidavit dated April 2, 2013, executed by Neil Wilmshurst of Electric Power Research Institute, Inc. (EPRI), requesting that some information contained in Attachments 4, 5, 6, and 7 of the license amendment request be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 2, Section 2.390.

By letter dated August 27, 2014 (ADAMS Accession No. ML14220A479), the NRC staff issued a request for additional information (RAI) regarding EPRI's request since the information claimed to be proprietary to EPRI was publicly available. By letter dated September 11, 2014 (ADAMS Accession No. ML14255A348), Exelon provided a response to the staff's RAI. Exelon's September 11, 2014, letter states that the information which EPRI previously claimed as proprietary is now considered nonproprietary. The letter included revisions to Attachments 4, 5, 6, and 7 of the application which can be made public.

Based on the information in the September 11, 2014, letter, the NRC staff acknowledges that EPRI is no longer requesting that any of the information in the application be withheld from public disclosure. Therefore, the NRC will release such information to the public.

M. Pacilio
