Good morning,

I have reviewed the response dated August 11, 2014 and I have one final question regarding the use of 35.300 materials. Since you intend to begin using I-131, please provide a detailed description/diagram of the room used for in-patient procedures involving 35.300 materials, including the areas above, below, and beside the patient's room. Alternatively, you may confirm that you will release all patients in accordance with 10 CFR 35.75.

Please ensure that the response is signed by a member of hospital management and return it to my attention. In your response, reference Mail Control No. 583806.

I will continue the review following the receipt of this information.
