Subject: Press Release
Attachments: Centrus Energy Corp News Release - 2014 09 30.pdf

I have attached for your information the press release issued today regarding emergence of USEC Inc. from restructuring and the adoption of a new company name, "Centrus Energy Corp." Centrus' subsidiaries retain their existing names, including the United States Enrichment Corporation and American Centrifuge Operating, LLC.

As we have discussed with NRC and DOE, USEC Inc. remains a legal entity and we will update the USEC Inc. FOCI information to include the company name change described in the attached press release. If you have any questions concerning this, please contact me.

Best regards,

Steve Toelle
