SUBJECT: VIRGIL C. SUMMER NUCLEAR STATION - NRC MATERIAL CONTROL AND
ACCOUNTING INSPECTION REPORT 05000395/20140405

Dear Mr. Gatlin:

On August 31, 2014, the U.S. Nuclear Regulatory Commission (NRC) completed a material control and accounting inspection at your Virgil C. Summer Nuclear Station. The enclosed inspection report documents the inspection results, which were discussed on September 11, 2014, with Mr. George Lippard and other members of your staff.

The inspection examined activities conducted under your license as they related to safety and compliance with the Commission's rules and regulations and with the conditions of your license. The inspectors reviewed selected procedures and records, observed activities, and interviewed personnel.

No NRC-identified or self-revealing findings were identified during this inspection. However, the inspectors documented a licensee-identified violation which was determined to be of very low safety significance in this report. The NRC is treating this violation as a non-cited violation (NCV) consistent with Section 2.3.2.a of the Enforcement Policy.

If you contest the violation or significance of the NCV, you should provide a response within 30 days of the date of this inspection report, with the basis for your denial, to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington DC 20555 0001; with copies to the Regional Administrator, Region II; the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555 0001; and the NRC resident inspector at the Virgil C. Summer Nuclear Station, Unit 1.

~~Enclosure transmitted herewith contains SUNSI material, when separated from the Enclosure this transmittal document is decontrolled.~~
