RE: NRC Temporary Job Site Notification - US NRC RML 41-35044-01; Docket 030-38619

Dear Ms / Sir:

EnergySolutions is submitting this advance notification for work at a temporary job site at the GE Hitachi Nuclear Energy Americas, LLC Morris facility at 7555 East Collins Road in Morris, IL, in accordance with condition 18 of our mobile NRC license 41-35044-01. EnergySolutions will be supporting a cask shipment of resin designated to be performed on October 15, 2014. The resin will be shipped to Erwin, TN for processing. Because the EnergySolutions and GE Hitachi radioactive materials licenses (RMLs) will be implemented at the same facility, a division of responsibilities agreement has been established between the licensees in accordance with condition 14 of our RML. A copy of the agreement will be forwarded once approved along with any further specifics regarding the shipment.

The Authorized User of the EnergySolutions' RML will be Mike Phillips. Mr Phillips will also be the shipping broker and will oversee all cask operations and can be reached at 865-405-6824 (cell). If you have any questions, you may contact me at 865-425-4587 (office), 865-250-2149 (cell) or via email at mcarr@energysolutions.com.

Respectfully,

Michael A. Carr, CHP
Radiation Safety Officer
EnergySolutions
