

October 8, 2014

Mr. Michael Blackwolf, Director
Fort Belknap Tribe
656 Agency Main Street
Harlem, MT 59526-9455

SUBJECT: REQUEST FOR INPUT FOR THE RENO CREEK IN SITU RECOVERY
PROJECT CULTURAL RESOURCE SURVEY

Dear Mr. Blackwolf:

It was the pleasure of my staff at the U.S. Nuclear Regulatory Commission (NRC) to meet with your representatives at the Reno Creek In Situ Recovery (ISR) Project cultural property survey near Wright, Wyoming in June and/or July 2014. Members of your staff performed a field survey as part of the Section 106 consultation process initiated by a request for a source materials license by AUC LLC for the Reno Creek ISR Project.

At the completion of the site surveys, the NRC staff asked that any important information which your Tribe wishes to have considered in a recommendation to the Wyoming State Historic Preservation Officer (WY SHPO) be submitted by the end of August 2014. This information may be used to support NRC's recommendations concerning potentially eligible sites located at the Reno Creek ISR project site.

The NRC staff is drafting the agency's recommendation to the WY SHPO and plans to submit a report in November 2014. Therefore, we respectfully request your input no later than October 30, 2014. Please let us know if you intend to send information to be used in our recommendation to the WY SHPO by contacting Ms. Jill Caverly, Project Manager at 301-415-6699 or by email at Jill.Caverly@nrc.gov. Please also feel free to call Ms. Caverly if you have any questions regarding this project.

Sincerely,

/RA/

Lydia Chang, Chief
Environmental Review Branch
Division of Fuel Cycle Safety, Safeguards
and Environmental Review
Office of Nuclear Material Safety
and Safeguards
